

22.101(455B) Applicability of Title V operating permit requirements.

22.101(1) Except as provided in rule 22.102(455B), any person who owns or operates any of the following sources shall obtain a Title V operating permit:

a. Any affected source subject to the provisions of Title IV of the Act;

b. Any major source;

c. Any source subject to a standard or other requirement under 567-subrule 23.1(2) (standards of performance for new stationary sources), 567-subrule 23.1(5) (emission guidelines), unless the source is specifically exempted, or Section 111 of the Act; or 567-subrule 23.1(3) (emissions standards for hazardous air pollutants), 567-subrule 23.1(4) (emission standards for hazardous air pollutants for source categories) or Section 112 of the Act. A source is not required to obtain a permit solely because it is subject to the provisions of Section 112(r) of the Act. Any source required to obtain a Title V operating permit solely because of the requirement imposed by this paragraph, and which is not a major source, is required to obtain a Title V permit only for the emissions units and related equipment causing the source to be subject to the Title V program;

d. Any solid waste incinerator unit required to obtain a Title V permit under section 129(e) of the Act;

e. Any source category designated by the administrator pursuant to 40 CFR 70.3 as amended through June 20, 1996.

22.101(2) Title V deferred stationary sources. The requirement to obtain a Title V permit is deferred for all sources listed in 22.101(1) that are not major sources, affected sources, or solid waste incineration units required to obtain a permit pursuant to Section 129(e) of the Act, unless by the final promulgation of a federal standard to which the source is subject under the provisions of 40 CFR Part 60 (as amended through November 24, 1998), 40 CFR Part 63 (as amended through December 28, 1998), or 567-subrule 23.1(5), a source is required to obtain a Title V permit. Each source receiving a deferral under the provisions of this rule shall submit a Title V permit application to the department within 12 months of the date when the requirement to obtain a Title V permit is no longer deferred for that source.

567-22.101

22.101(3) Election to apply for permit. Any source exempt under rule 22.102(455B) may elect to apply for a Title V permit.

Description:	The EPA promulgated interim approval of the Title V operating permits program and approved the state's program for receiving delegation of section 112 standards. Interim approval expires October 1, 1997.
--------------	---

[illegible]

Description: This revision amended subrule 22.101(1), introductory paragraph, by changing the word "paragraph" to "subrule."

[illegible]

Description:	The EPA granted final full approval to the Title V operating permit program for the purpose of meeting the requirements of 40 C.F.R. Part 70. This fulfills the conditions of the interim approval granted on September 1, 1995, which required the state to submit a revised workload analysis describing how the operating permit program would be implemented.
